This collection of slacker psychedelic comics spawned a thousand Internet memes.

Although scientific models and simulations differ in numerous ways, they are similar in so far as they are posing essentially philosophical problems about the nature of representation. This collection is designed to bring together some of the best work on the nature of representation being done by both established senior philosophers of science and younger researchers. Most of the pieces, while appealing to existing traditions of scientific representation, explore new types of questions, such as: how understanding can be developed within computational science; how the format of representations matters for their use, be it for the purpose of research or education; how the concepts of emergence and supervenience can be further analyzed by taking into account computational science; or how the emphasis upon tractability--a particularly important issue in computational science--sheds new light on the philosophical analysis of scientific reasoning.

In a contemporary setting of increasing social division and marginalisation, Policing Hate Crime interrogates the complexities of prejudice motivated crime and effective policing practices. Hate crime has become a barometer for contemporary police relations with vulnerable and marginalised communities. But how do police effectively lead conversations with such communities about problems arising from prejudice? Contemporary police are expected to be active agents in the pursuit of social justice and human rights by stamping out prejudice and group-based animosity. At the same time, police have been criticised in over-policing targeted communities as potential perpetrators, as well as under-policing these same communities as victims of crime. Despite this history, the demand for impartial law enforcement requires police to change their engagement with targeted communities and kindle trust as priorities in strengthening their response to hate crime. Drawing upon a research partnership between police and academics, this book entwines current law enforcement responses with key debates on the meaning of hate crime to explore the potential for misunderstandings of hate crime between police and communities, and illuminates ways to overcome communication difficulties. This book will be important reading for students taking courses in hate crime, as well as victimology, policing, and crime and community.

The Routledge Handbook of Arabic Linguistics introduces readers to the major facets of research on Arabic and of the linguistic situation in the Arabic-speaking world. The edited collection includes chapters from prominent experts on various fields of Arabic linguistics. The contributors provide overviews of the state of the art in their field and specifically focus on ideas and issues. Not simply an overview of the field, this handbook explores subjects in great depth and from multiple perspectives. In addition to the traditional areas of Arabic linguistics, the handbook covers computational approaches to Arabic, Arabic in the diaspora, neurolinguistic approaches to Arabic, and Arabic as a global language. The Routledge Handbook of Arabic Linguistics is a much-needed resource for researchers on Arabic and comparative linguistics, syntax, morphology, computational linguistics, psycholinguistics, sociolinguistics, and applied linguistics, and also for undergraduate and graduate students studying Arabic or linguistics.

For everyone who loves watching Amanda Owen and her family on Our Yorkshire Farm, or enjoys reading her bestselling books, comes this delightful and uplifting collection of her monthly Dalesman columns. In Tales From the Farm by the Yorkshire Shepherdess Amanda takes readers on an evocative journey to Ravenseat, where she lives with husband Clive and their nine children, not to mention their flock of sheep, herd of cows, hardworking dogs and a formidable chicken called Linda. Covering events from 2019 through to early 2021, Amanda describes saving the life of a newborn calf on New Year's Eve and watching, mouth agape, as their livestock trailer was swept away by floodwater in March. Son Sidney braves the wrath of Linda and husband Clive crafts an unusual Valentine's Day gift. Eldest daughter Raven leaves the nest, headed for university, while young sheepdog Taff and Tony the pony arrive at the farm. As Covid-19 sends the country into lockdown, Amanda feels more lucky than ever to live close to nature, finding happiness in the beauty of the Dales and the unchanging routines of the farming year. Illustrated with charming line-drawings throughout, this book is the perfect gift for fans of the Owen family and a chance to catch up on their adventures.

This one hundred page book focuses exclusively on how you can best use the ASP.NET MVC 4 Framework to build world-class REST services using the Web API. It sets aside much of what the ASP.NET MVC Framework can do, and focuses exclusively on how the Web API can help you build web services. You will not find any help on CSS, HTML, JavaScript, or jQuery. Nor will you find any help on the Razor view engine, HTML Helpers, or model binding. If you need this information then Pro ASP.NET MVC 4 is your perfect book. ASP.NET MVC 4 and the Web API: Building a REST Service from Start to Finish helps you build cutting-edge REST services using ASP.NET MVC 4 and the Web API in more depth and detail than any other resource. ASP.NET MVC has always been a good platform on which to implement REST, but with the advent of the Web API it has now become even better. This book will show you why it's great and how to get the most from it. Author Jamie Kurtz will take you from zero to full-blown REST service hero in no time at all. And you'll even learn how to incorporate some popular open source tools along the way: little or no experience with ASP.NET or the MVC Framework is required.

The media continue to have a significant persuasive influence on the public perception of crime, even when the information presented is not reflective of the crime rate or actual crime itself. There have been numerous theoretical studies on fear of crime in the media, but few have considered this from a social psychological perspective. As new media outlets emerge and public dependence on them increases, the need for such awareness has never been greater. This volume lays the foundation for understanding fear of crime from a social psychological perspective in a way that has not yet been systematically presented to the academic world. This volume brings together an international team of experts and scholars to assess the role of fear and the media in everyday life. Chapters take a multidisciplinary approach to psychology, sociology and criminology and explore such topics as dual process theory, construal level theory, public fascination with gangs, and other contemporary issues.

Michael: Being the token gay kid in the school was never gonna be an easy ride, I mistakenly thought my best friend Jared would be there for me through thick and thin. I never expected him to become the high school bully that made me hate who I am. One thing's for sure, Jared Collins had my heart, before he broke it in two, I'll never make that mistake again Jared: I can't get him out of my head. Michael Irwin was a temptation that I could not let myself give into. When you're parents are leaders of the church, being openly gay is never going to happen. Once high school is over and I'm out on my own, all bets are off. Michael Irwin is may not realise it yet, but he's mine.

This valuable companion to the Project Management Institute's A Guide to the Project Management Body of Knowledge (PMBOK® Guide)—Sixth Edition presents comprehensive examples and explanations of the tools and techniques presented in the PMBOK® Guide. Designed specifically to assist both new and experienced project managers in handling all aspects of a project, this title explains the “how” when it comes to project management theory. Concrete examples of tools for project managers will fill the gap in this PM knowledge area and provide necessary guidance for both practicing project managers and students.
