In this thoroughly revised and updated classic, a renowned psychologist shows that mourning is far from predictable, and all of us share a surprising ability to be resilient The conventional view of grieving—encapsulated by the famous five stages of grief: denial, anger, bargaining, depression, and acceptance—is defined by a mourning process that we can only hope to accept and endure. In The Other Side of Sadness, psychologist and emotions expert George Bonanno argues otherwise. Our inborn emotions—anger and denial, but also relief and joy—help us deal effectively with loss. To expect or require only grief-stricken behavior from the bereaved does them harm. In fact, grieving goes beyond mere sadness, and it can actually deepen interpersonal connections and even lead to a new sense of meaning in life.

‘An excellent book, the most objective short account I know of all the various approaches to depression.’ Anthony Storr Several years ago, Lewis Wolpert had a severe episode of depression. Despite a happy marriage and successful scientific career, he could think only of suicide. When he did recover, he became aware of the stigma attached to depression - and just how difficult it was to get reliable information. With characteristic candour and determination he set about writing this book, an acclaimed investigation into the causes and treatments of depression, which formed the basis for a BBC TV series. This paperback edition features a new introduction, in which Wolpert discusses the reaction to his book and BBC series, and recounts his own recurring struggle with depression.

In the autumn of 1973, Willie Steelman and Douglas Gretzler embarked on a murderous drug-fueled rampage across Arizona and California. Steelman was little more than a petty thief, an addict, a dreamer, never able to unleash the man he thought himself to be, but that changed earlier that summer when he met Gretzler. And it was in that Denver, Colorado crash pad where they formed a pact, a third person, created out of their collective souls, someone capable of the unthinkable, together achieving what neither could ever imagine doing on his own. Authorities were soon following the trail of their dead, coming up just hours short of catching them before their final evil act. Hidden in the closet of a farmhouse near Lodi, California, they found the last nine victims. Two entire families shot point blank, including children as they slept, all executed in a violent display of power and paranoia. Days later, when the count was complete, Willie and Doug had killed seventeen, and they could never honestly say why. Of those final nine, four were the author's aunt, uncle and cousins, and haunted for two decades over the mystery of what happened, he retraces the killers' steps, following their ghosts into the darkness, slowly piecing together the puzzle of this deadly odyssey. Where Sadness Breathes chronicles their day by day road trip, told from the inside perspective of a family member who for twenty years was consumed by the randomness of such unexplainable loss, and who along the way uncovers a true American tragedy, as well as the cleansing power of forgiveness.

The story of this entanglement is a beautifully rendered tale of grace and renewal, of friendship and longing, of loneliness and spiritual aridity giving way to hope.

From Sadness and Happiness: Poems by Robert Pinsky: CEREMONY FOR ANY BEGINNING Robert Pinsky ? Against weather, and the random Harpies--mood, circumstance, the laws Of biography, chance, physics-- The unseasonable soul holds forth, Eager for form as a renowned Pedant, the emperor's man of worth, Hereditary arbiter of manners. Soul, one's life is one's enemy. As the small children learn, what happens Takes over, and what you were goes away. They learn it in sardonic soft Comments of the weather, when it sharpens The hard surfaces of daylight: light Winds, vague in direction, like blades Lavishing their brilliant strokes All over a wrecked house, The nude wallpaper and the brute Intelligence of the torn pipes. Therefore when you marry or build Pray to be untrue to the plain Dominance of your own weather, how it keeps Going even in the woods when not A soul is there, and how it implies Always that separate, cold Splendidence, uncouth and unkind-- On chilly, unclouded mornings, Torrential sunlight and moist air, Leafage and solid bark breathing the mist.
