Introduction. With SAP Solution Manager 7.2, the way Business Process Monitoring is set up changes drastically compared to SAP Solution Manager 7.1 . There is no longer a separate BPMon Setup tool. Instead, the configuration of BPMon is now fully integrated with the solution documentation. This Wiki page and its sub-pages explain the details how to configure Business Process Monitoring in SAP Solution Manager 7.2.

2483121 - Interface Channel Monitoring (ICMon) grey ... - SAP

Interface and Connection Monitoring (ICMon) in SAP Solution Manager provides a common, centralized approach to monitor communications via various interface technologies within your landscape. In order to abstract from a concrete technical implementation of an interface, so-called Interface Channels are defined to bundle a certain amount of interfaces communicating between two technical entities (e.g. Technical Systems, Hosts, etc.).
