An entrepreneur opens an existing business concept in a new location or sector of the market, or she tries to take some market share away from competitors. Alternatively, she creates a new market with a novel business idea. Small-business management requires knowledge of how to develop the market by marketing one or more products to customers and convincing them that your company gives these products value.

The Definition of Small Business Management Entrepreneurship

Small business entrepreneurs must cover assets, liabilities, revenues, expenses and equity in their financial book. Maintain separate records for each of the same. Profits determine the existence of a business but constant cashflow is the life of the business.
