[MOBI] Smily Sensory Motor Integration Learning With Yoga  
SENSORY MOTOR INTEGRATION. Sensory motor  
integration refers to a relationship between the sensory  
system (nerves) and the motor system (muscles). Also, it  
refers to the process by which these two systems (sensory  
and motor) communicate and coordinate with each other.  
Sensory motor integration skills are developed during the  
period of growth from birth to about age 7.

school. I also knew that the use of yoga could be justified as an effective method to stimulate learning ...

## S.M.I.L.Y.: Sensory Motor Integration and Learning With ...

Sensory Integration theory teaches us that the vestibular system can have the greatest impact on both the modulation of sensory input as well as the development of all types of skills. The vestibular system is related to the regulation of muscle tone, balance, motor control, postural control, visual space perception, visual-motor control, auditory language skills and attention.
