(USA) Innovators Magazine promoted a video contest by GMO Answers last month that asked the public to say how they would use biotech to tackle food-related problems. The engaging initiative, where people submitted a short 15 to 30 second video, helped raise awareness of biotechnology among the public. With perceptions and facts on some of the issues [...]

Students find solutions using biotech | Innovators magazine

Online. GMO Answers is a front group launched by the agricultural biotechnology industry in July 2013 to participate in public debate around genetically modified organisms (GMOs) in crops in the U.S. food supply. Cathleen Enright, then executive director of Council for Biotechnology Information, said GMO Answers was not specifically created to advocate against GMO labeling, but rather to provide accurate information about GMOs to consumers: "We have been accused of purposely hiding information.

GMO Answers - Wikipedia

A genetically modified organism, or GMO, is an organism that has had its DNA altered or modified in some way through genetic engineering. In most cases, GMOs have been altered with DNA from another...
