Super Mario 3D Land was released for the Nintendo 3DS in November and December 2011. It is the first original 3D Super Mario game on a handheld console, since all previous games were either 2D or re-edits of former games. As an attempt to translate the gameplay of the 2D games into a 3D environment, it tried to simplify the control scheme of ...

Wallops are enemies that appear in Super Mario 3D Land. They look like Whomps, except they are shaped like a fort wall with black eyes and yellow pupils, with mouths and feet. Instead of attempting to squash the player by slamming on the ground when they get too close, Wallops block their way by following their movements.

Morty Moles are a giant species related to Monty Moles that appear in Super Mario 3D Land. They resemble Mega Moles, but have a mahogany fur color, tan belly, do not wear sunglasses, and are susceptible to stomping. They are fought similarly to Rexes; they get shorter and faster after the first stomp, and are defeated on the second stomp. However, they will revert back to their regular size if they manage to hit Mario while they are short, or after a short time.
