Computer Science and Engineering: Lab Programs - CSE - V SEM

The most awaited change has come up in the syllabus of Engineering students. The addition of “ Foss Lab Manual ” will bring in more creativity in programming and will increase the ability of the budding engineers to write their own programs / softwares. This includes the fundamental concepts of Linux OS which is an essential learning for programmers and developers.

Software engineering tools provide automated or semiautomated support for the process and the methods. When tools are integrated so that information created by one tool can be used by another, a system for the support of software development, called computer-aided software engineering, is established.
