Terminologia Anatomica (TA) is the international standard on human anatomic terminology. It was developed by the Federative Committee on Anatomical Terminology (FCAT) and the International Federation of Associations of Anatomists (IFAA) and was released in 1998. It supersedes the previous standard, Nomina Anatomica.

1903 the IFAA has held periodic conventions for the standardization of anatomic concepts and terminology.

Terminologia Anatomica | definition of Terminologia ...

The official anatomical terminology was composed by the Federative Committee on Anatomical Terminology (FCAT) (which has been succeeded by the Federative International Programme for Anatomical Terminology - FIPAT) and was agreed upon and laid down by the International Federation of Associations of Anatomists (IFAA) in the Terminologia Anatomica (TA).

About - AnatomicalTerms.info

The current international standard for human anatomical terminology is

Acces PDF Terminologia Anatomica International

based on the Terminologia
Anatomica (TA). It was developed by
the Federative Committee on
Anatomical Terminology (FCAT) and
the International Federation of
Associations of Anatomists (IFAA) and
was released in 1998. It supersedes
the previous standard, Nomina
Anatomica.
