Israel Regardie's "The Art of True Healing" helped me make a whole lot of connections. This work is kind of a blending of chakras, creative visualization, Kabbalah, magick, and self-hypnosis. And mantras. And color therapy (sort of). It helped me make sense of some Kabbalah terminology, and gave me a working basis for the Tree of Life's Middle Pillar.

The Art of True Healing details a powerful exercise that stimulates the body, mind, and spirit to help us create physical health and personal success. Originally published in 1932, predating by more than a half century the current interest in the mind's power to heal, this concise work guides readers through what Israel Regardie calls the Middle Pillar meditation – a technique that combines the mystical concepts of yoga's chakras and the Kabbalah's Tree of Life to create a simple and effective healing tool. In this edition, editor Marc Allen brings Regardie's work into the twenty-first century – showing us how to unleash energy to heal our bodies and, ultimately, every part of our lives. Like few books before or since, The Art of True Healing provides both the theory and practices necessary for attaining well-being and fulfillment.

2012 Reprint of 1945 Edition. Exact facsimile of the original edition, not reproduced with Optical Recognition Software. Israel Regardie, born Francis Israel Regudy (1907-1985) was an occultist and writer, author of books on the Hermetic Order of the Golden Dawn. The exercise known as the "Middle Pillar" was devised by the Hermetic Order of the Golden Dawn. Regardie expanded upon it and made it public over 60 years ago in the first edition of this book. Since that time, the exercise has been altered and adapted for just about any spiritual use you could think of. It is a mainstay of many Western traditions of magic. The exercise is intended as a technique to break the barrier between the conscious and unconscious. This classic work provides an introduction to magic and occultism while providing directions as to how to perform the Qabalistic Cross, the Lesser Banishing Ritual of the Pentagram and the Middle Pillar exercise. It remains a classic book in the field.

This twelve-month manual brings the serious student of consciousness to an ongoing awareness of unity. Dr. Regardie revised this edition (originally published as Twelve Steps to Spiritual Enlightenment) to progress from the physical disciplines of body awareness, relaxation, and rhythmic breathing, through concentration, developing will, mantra practice, to the ultimate awareness that All is God.

Heartwarming and Heart-Opening Stories Gathered from Decades of Medical Practice Bernie Siegel first wrote about miracles when he was a practicing surgeon and founded Exceptional Cancer Patients, a groundbreaking synthesis of group, individual, dream, and art therapy that provided patients with a "carefrontation." Compiled during his more than thirty years of practice, speaking, and teaching, the stories in these pages are riveting, warm, and belief expanding. Their subjects include a girl whose baby brother helped her overcome anorexia, a woman whose cancer helped her heal by teaching her to stand up for herself, and a family that was saved from a burning house by bats. Without diminishing the reality of pain and hardship, the stories show real people turning crisis into blessing by responding to adversity in ways that empower and heal. They demonstrate what we are capable of and show us that we can achieve miracles as we confront life's difficulties.

In this truly inspirational memoir, Anita Moorjani relates how, after fighting cancer for almost four years, her body began shutting down—overwhelmed by the malignant cells spreading throughout her system. As her organs failed, she entered into an extraordinary near-

death experience where she realized her inherent worth . . . and the actual cause of her disease. Upon regaining consciousness, Anita found that her condition had improved so rapidly that she was released from the hospital within weeks—without a trace of cancer in her body! Within these pages, Anita recounts stories of her childhood in Hong Kong, her challenge to establish her career and find true love, as well as how she eventually ended up in that hospital bed where she defied all medical knowledge. As part of a traditional Hindu family residing in a largely Chinese and British society, Anita had been pushed and pulled by cultural and religious customs since she was a little girl. After years of struggling to forge her own path while trying to meet everyone else's expectations, she had the realization, as a result of her epiphany on the other side, that she had the power to heal herself . . . and that there are miracles in the Universe that she'd never even imagined. In *Dying to Be Me*, Anita freely shares all she has learned about illness, healing, fear, "being love," and the true magnificence of each and every human being! This is a book that definitely makes the case that we are spiritual beings having a human experience . . . and that we are all One!

Not too long ago, massage was associated with seedy massage parlors. Today, massage is exploding with the number of American adults getting massage doubling from 1997-2002. In 2003, this number grew to over 40 million, along with 260,000+ massage therapist and massage students. Sister Rosalind Geffre has been widely recognized for her work in making massage an accepted healthcare practice.
