positive, and be a powerful advocate for your child. Winner--American Journal of Nursing Book of the Year Award

Once considered an adult illness, bipolar disorder is one of the fastest growing categories in child psychiatry, touching the lives of an estimated one million children. But often it goes misdiagnosed, and kids can be prescribed medication that only worsens the condition. With her twenty-five years' experience, child psychiatrist Rosalie Greenberg offers parents and professionals alike an innovative approach to help bipolar youngsters locate that elusive inner calm. Gathering stories from families on the front lines, she shows parents how best to navigate the peaks and valleys of the disorder, addresses

Hollywood portrayals. This book supports, educates, and informs the reader, offering hope and encouragement.

The life of a person with bipolar disorder can be tumultuous. Imagine living in a world divided into many parts: one is fast-paced, frantic, energetic--you are at the top of your game and feeling invincible; another is so bleak and dark that even the simple task of going to the store requires Herculean effort. Now imagine a third: going about your daily routing when another manifestation, the mixed state, combines these symptoms simultaneously. This is just a glimpse into the world of a person with bipolar disorder. Many people diagnosed with this disorder are adolescents: young people who often feel isolated, unsure

of who to talk to, or where to turn for help or answers. Having been diagnosed with the disorder at age fifteen, Patrick Jamieson knows firsthand the highs and lows and bring his experiences to bear in *Mind Race: A Firsthand Account of One Teenager's Experience with Bipolar Disorder*, the first in the Annenberg Mental Health Initiative series written specifically for teenagers and young adults. *Mind Race* is a first-person account, aimed at teens who have recently been diagnosed with bipolar disorder, informative in a compassionate, good-humored, yet authoritative manner. Jamieson discusses his own challenges and triumphs, and offers advice on dealing with developing symptoms such as how to recognize the beginning of a mood shift. In accessible language, he

presents the latest in scientific research on the disorder, treatment options, and how to cope with side effects of different medications. He includes a detailed F.A.Q. that answers the questions a newly diagnosed adolescent is likely to have, and also offers suggestions on how to communicate with friends and family about the bipolar experience. With *Mind Race*, Jamieson offers hope to teens and young adults living with bipolar disorder, helping them to navigate and overcome their challenges so they can lead a full and rewarding life.

This highly respected reference and text on developmental psychopathology brings together leading authorities on the psychological, biological, and social-

contextual determinants of child and adolescent problems. The comprehensive introductory chapter provides a state-of-the-art developmental-systems framework for understanding behavioral and emotional disturbances. Subsequent chapters synthesize the developmental bases of specific disorders. Coverage includes the characteristics, epidemiology, developmental course and outcomes, and etiological pathways of each disorder; risk and protective factors; and issues in conceptualization and diagnosis. Important unanswered questions are identified and implications for treatment and prevention considered. New to This Edition *Includes DSM-5 criteria and discussion of changes. *Incorporates over a decade's worth of research
