The Copernican Revolution: Planetary Astronomy in  
the ...

Copernican Revolution, shift in the field of astronomy  
from a Ptolemaic geocentric understanding of the  
universe to a heliocentric understanding as  
articulated by Nicolaus Copernicus in the 16th  
century. This challenge to the long-standing model  
marked the start of the Scientific Revolution.

The Copernican Revolution: Planetary Astronomy in  
the ...

With a constant keen awareness of the inseparable  
mixture of its technical, philosophical, and humanistic  
elements, Thomas S. Kuhn displays the full scope of  
the Copernican Revolution as simultaneously an  
episode in the internal development of astronomy, a  
critical turning point in the evolution of scientific  
thought, and a crisis in Western man's concept of his  
relation to the universe and to God.

The Copernican Revolution: Planetary Astronomy in  
the ...

The Copernican Revolution was the paradigm shift  
from the Ptolemaic model of the heavens, which  
described the cosmos as having Earth stationary at  
the center of the universe, to the heliocentric model  
with the Sun at the center of the Solar System. This  
revolution consisted of two phases; the first being  
extremely mathematical in nature and the second
