Is the DNA that is at the core of all life in the universe a "cosmic code" that links Earth to heaven and man to God? In this sixth volume of The Earth Chronicles, Zecharia Sitchin unveils writings from the past to decipher prophecies, and reveals how the DNA-matched Hebrew alphabet and the numerical values of its letters serve as a code that bares the secrets of mortal man's fate and mankind's celestial destiny.

Reveals Zecharia Sitchin's groundbreaking research into the code left behind by the creators of humanity. □ Explains how the Anunnaki were not merely the mythical gods of the Sumerians, but rather the founders of human life on Earth. □ Using Biblical and ancient Sumerian sources, explains how to decode these messages our star ancestors left behind. Daring to challenge our long-held beliefs about the origins of man, Zecharia Sitchin suggests that humans are not the children of God, but rather the children of the Anunnaki, an ancient race from the planet Nibiru. His revolutionary theories are supported by his intense scrutiny of not only ancient Sumerian texts but also stone structures all over the world. The similarities and astrological significance of these formations suggests that rather than looking for guidance from leaders here on Earth, humanity should instead look to the sky for answers. The Earth Chronicles deal with the history and prehistory of Earth and humankind. Each book in the series is based upon information written on clay tablets by the ancient civilizations of the Near East. For the first time, the entire Earth Chronicles series is now available in a hardcover collector's edition.

Identifies an ancient race of extraordinary beings responsible for the evolution of life on Earth, citing as proof the monoliths at Stonehenge and other world mysteries, and explaining the genetic codes revealed in ancient texts. Reissue.

Many thousands of years ago, a group of extraterrestrials from another planet guided the evolution of life on Earth—determining the existence and nature of humankind as we know it today. How did the master builders from the stars construct the miracle called man? Is the DNA that is at the core of all life in the universe a "cosmic code" that links Earth to heaven and man to God? In this sixth volume of The Earth Chronicles, Zecharia Sitchin unveils writings from the past to decipher prophecies, and reveals how the DNA-matched Hebrew alphabet and the numerical values of its letters serve as a code that bares the secrets of mortal man's fate and mankind's celestial destiny.

Night and day, month after month, year after year, our ancestors dutifully recorded the passage of time on clay tablets, watching the heavens from stage towers and pyramids and from megalithic monuments whose incredible size and precise architecture boggle the mind. . . . Who were the builders of these mysterious structures? What was their purpose? Whose signature is indelibly written on these timeless stones, and who was the Divine Architect? Why was Stonehenge and its likes built by ancient civilizations at the very same time--4,100 years ago? What is their message for our time? With these questions in mind, Zecharia Sitchin, renowned researcher of past ages, takes us on a journey through the records of time in this, the fifth book of his Earth Chronicles series. Drawing deeply on Sumerian and Egyptian writings, millennia-old artifacts, and sacred architecture ranging from ancient Mesopotamia to pre-Columbian civilizations in the Americas, this bestselling scholar provides astounding insights into the origins of the calendar, astronomy, and astrology. He takes readers to the climax circa 2100 b.c. when Marduk, the Babylonian national god, attained supremacy on Earth and proclaimed the New Age of Aries--after which society, religion, science, and the status of women were never the same.

Hardcover collector's editions of all 7 volumes of the Earth Chronicles Series in a display slipcase □ Includes The 12th Planet, The Stairway to Heaven, The Wars of Gods and Men, The Lost Realms, When Time Began, The Cosmic Code, and The End of Days □ The culmination of Sitchin's 30 years of intensive research offering indisputable documentary proof of humanity's extraterrestrial forefathers The Earth Chronicles series, with millions of copies sold worldwide, represents the culmination of Zecharia Sitchin's 30 years of intensive research into the history and prehistory of Earth and humankind as recorded by the ancient civilizations of the Near East. Within these volumes, Sitchin--one of the few scholars able to read and interpret ancient Sumerian and Akkadian clay tablets--presents indisputable millennia-old proof of humanity's extraterrestrial forefathers, the Anunnaki, who visited Earth every 3,600 years from their home planet Nibiru. This boxed set of hardcover collector's editions with enhanced maps and diagrams includes all 7 volumes of the Earth Chronicles series: The 12th Planet, The Stairway to Heaven, The Wars of Gods and Men, The Lost Realms, When Time Began, The Cosmic Code, and The End of Days.

The Earth Chronicles series is based on the premise that mythology is not fanciful but the repository of ancient memories; that the Bible ought to be read literally as a

historic/scientific document; and that ancient civilizations--older and greater than assumed--were the product of knowledge brought to Earth by the Anunnaki, "Those Who from Heaven to Earth Came." The 12th Planet, the first book of the series, presents ancient evidence for the existence of an additional planet in the Solar System: the home planet of the Anunnaki. In confirmation of this evidence, recent data from unmanned spacecraft has led astronomers to actively search for what is being called "Planet X." The subsequent volume, The Stairway to Heaven, traces man's unending search for immortality to a spaceport in the Sinai Peninsula and to the Giza pyramids, which had served as landing beacons for it--refuting the notion that these pyramids were built by human pharaohs. Recently, records by an eye witness to a forgery of an inscription by the pharaoh Khufu inside the Great Pyramid corroborated the book's conclusions. The Wars of Gods and Men, recounting events closer to our times, concludes that the Sinai spaceport was destroyed 4,000 years ago with nuclear weapons. Photographs of Earth from space clearly show evidence of such an explosion. Such gratifying corroboration of audacious conclusions has been even swifter for The Lost Realms. In the relatively short interval between the completion of the manuscript and its publication, archaeologists, linguists, and other scientists have offered a "coastal theory" in lieu of the "frozen trekking" one to account for man's arrival in the Americas--in ships, as this volume has concluded. These experts have "suddenly discovered 2,000 years of missing civilization" in the words of a Yale University scholar--confirming this book's conclusion--and are now linking the beginnings of such civilizations to those of the Old World, as Sumerian texts and biblical verses. For the first time, the entire Earth Chronicles series is now available in a hardcover collector's edition.

Over the years, startling evidence has been unearthed, challenging established notions of the origins of Earth and life on it, and suggesting the existence of a superior race of beings who once inhabited our world. The product of thirty years of intensive research, The 12th Planet is the first book in Zecharia Sitchin's prophetic Earth Chronicles series--a revolutionary body of work that offers indisputable documentary proof of humanity's extraterrestrial forefathers. Travelers from the stars, they arrived eons ago, and planted the genetic seed that would ultimately blossom into a remarkable species...called Man. The 12th Planet brings to life the Sumerian civilization, presenting millennia-old evidence of the existence of Nibiru, the home planet of the Anunnaki, and of the landings of the Anunnaki on Earth every 3,600 years, and reveals a complete history of the solar system as told by these early visitors from another planet. Zecharia Sitchin's Earth Chronicles series, with millions of copies sold worldwide, deal with the history and prehistory of Earth and humankind. Each book in the series is based upon information written on clay tablets by the ancient civilizations of the Near East. The series is offered here, for the first time, in highly readable, hardbound collector's editions with enhanced maps and diagrams.

The Earth Chronicles series, in six volumes, deals with the history and prehistory of Earth and humankind. Asserting the premise that mythology is not fanciful but the repository of ancient memories, The Earth Chronicles series suggests that the Bible ought to be read literally as a historic/scientific document, and that ancient civilizations--older and greater than assumed--were the product of knowledge brought to Earth by the Anunnaki, "Those Who from Heaven to Earth Came." The 12th Planet, the first book of the series, presents ancient evidence for the existence of an additional planet in the Solar System: the home planet of the Anunnaki. Recently, records by an eye-witness to a forgery of an inscription by the pharaoh Khufu inside the Great Pyramid corroborated the book's conclusions. In The Wars of Gods and Men, the third volume of his series, Zacharia Sitchin recounts events closer to our times, concluding that the Sinai spaceport was destroyed 4,000 years ago with nuclear weapons. Photographs of Earth from space clearly show evidence of such an explosion. The Wars of Gods and Men additionally embraces Canaanite, Hittite, and Hindu sources to include in these investigations the incidents of The Great Flood, the Tower of Babel, and the upheaval of Sodom and Gomorrah. Sitchin's unique reexamination of ancient mysteries explains these past cataclysmic events in the history of humanity, opening insights into our future.

Why is it that our current twenty-first century A.D. is so similar to the twenty-first century B.C.? Is history destined to repeat itself? Will biblical prophecies come true, and if so, when? It has been more than three decades since Zecharia Sitchin's trailblazing book The 12th Planet brought to life the Sumerian civilization and its record of the Anunnaki--the extraterrestrials who fashioned man and gave mankind civilization and religion. In this new volume, Sitchin shows that the End is anchored in the events of the Beginning, and once you learn of this Beginning, it is possible to foretell the Future. In The End of Days, a masterwork that required thirty years of additional research, Sitchin presents compelling new

evidence that the Past is the Future—that mankind and its planet Earth are subject to a predetermined cyclical Celestial Time. In an age when religious fanaticism and a clash of civilizations raise the specter of a nuclear Armageddon, Zecharia Sitchin shatters perceptions and uses history to reveal what is to come at The End of Days.
