The dark side of innovation refers to all such innovations (and changes in an industry). They leave incumbents worse off irrespective of whether incumbents pursue the innovation or avoid them. Such innovations are not like trains leaving the station.

What is The Dark Side of Innovation? - ankushchopra.com

Innovation has usually been considered the engine of business success. But innovation has a dark side. In The Dark Side of Innovation, author Ankush Chopra shows what can happen to a company when innovations arise that impact profitability. He also outlines a step-by-step method for businesses to deal with the resulting quandary.

Abstract We provide a broad discussion of the dark side of innovation, before introducing the papers of the special issue. We start with a critical reply to optimists, complementing the list of indicators showing steady human progress with a list of indicators that show sustained deterioration (largely due to innovation).

The Dark Side of Analyst Coverage: The Case of Innovation Abstract We examine the effect of analyst coverage on firm innovation. Our baseline results show that firms covered by a larger number of analysts generate fewer patents and patents with lower impact. The evidence is consistent with the hypothesis that analysts exert too much pressure on

The Dark Side of Analyst Coverage: The Case of Innovation

Together with the main finding of our paper that analysts impede firm innovation, the above evidence seems to reveal one possible “ dark ” side of financial analysts: their negative impact on firm value by discouraging innovative activities. However, we need to bear in mind two important caveats when interpreting or generalizing our results.

What is the dark side of innovation? When a change threatens to destroy your profits instead of helping you enhance profits, I call it a profit destroying changes. These changes create cognitive illusions for a firm and managers facing them. Since the truth often evades managers, it remains hidden from view. It remains on the dark side of cognition.
