Unsurprisingly, walking is also the best way to soak up the sights, sounds, smells, and experiences of New York. The main difficulty in packing for a city of fashion-obsessed walkers is how to balance fashion and function. The gold rule is to err on the side of function, especially if you are going specifically to sight-see.

Ten years after the phenomenal success of her once-in-ageration cookbook, former New York Times food editor Amanda Hesser returns with an updated edition for a new wave of home cooks. Devoted Times subscribers as well as newcomers to the paper's culinary mother lode will find dozens of recipes to treasure: Purple Plum Torte, David Eyre's Pancake, Pamela Sherid's Summer Pasta, and a host of other classics, from 1940s Caesar Salad and 1960s flourless chocolate cake (Evelyn Sharpe's French Chocolate Cake) to today's No-Knead Bread and Giant Crinkled Chocolate Chip Cookies. Also included are fifty new but instantly iconic recipes, including Samin Nosrat's Herbed Rice with Tahdig, Melissa Clark's Simple Roast Turkey, and Alison Roman's one-pot Spiced Chickpea Stew.Hesser has tested and adapted each of the 1,000-plus recipes, and she highlights her go-to favorites from more than a century's-worth of cooking tradition with wit and warmth. As Saveur declared, this is a "tremendously appealing collection of recipes that tells the story of American cooking."

A perennial bestseller since 1997, this updated tenth edition of Understanding Research Methods provides a detailed overview of all the important concepts traditionally covered in a research methods class. It covers the principles of both qualitative and quantitative research, and how to interpret statistics without computations, so is suitable for all students regardless of their math background. The book is organized so that each concept is treated independently and can be used in any order without resulting in gaps in knowledge—allowing it to be easily and precisely adapted to any course. It uses lively examples on contemporary topics to stimulate students' interest, and engages them by showing the relevance of research methods to their everyday lives. Numerous case studies and end-of-section exercises help students master the material and encourage classroom discussion. The text is divided into short, independent topic sections, making it easy for you to adapt the material to your own teaching needs and customize assignments to the aspect of qualitative or quantitative methods under study—helping to improve students' comprehension and retention of difficult concepts. Additional online PowerPoint slides and test bank questions make this a complete resource for introducing students to research methods. New to this edition: New topic section on design decisions in research Additional material on production of knowledge and research methods Significant development of material on ethical considerations in research Fresh and contemporary examples from a wide variety of real, published research Topic-specific exercises at the end of each section now include suggestions for further steps researchers can take as they build their research project.

Written in a refreshing conversational style, this text thoroughly prepares students, program administrators, and new evaluators to conduct evaluations or to use them in their work. The book's question-driven focus and clear discussions about the importance of fostering evaluation use by building collaborative relationships with stakeholders set it apart from other available texts. In 26 concise sections, Marvin C. Alkin explores how to articulate answerable evaluation questions, collect and analyze data using both quantitative and qualitative methods, and deal with contingencies that might alter the traditional sequence of an evaluation. Student-friendly features include handy bulleted recaps of each section, "Thinking Ahead" and "Next Steps" pointers, cautionary notes, annotated suggestions for further reading, and an in-depth case study that provides the basis for end-of-chapter exercises.
