People are interested in the bond between humans and companion animals for a variety of reasons. Many pet owners see their pets as a valued member of the family and openly admit to loving their pets and having strong attachments – they simply enjoy the companionship and unconditional love their pet brings. Practitioners including counsellors, veterinary surgeons, occupational therapists and GPs are increasingly aware of the influence that pets can have in the lives of their clients and how ...

Human-Animal Bond | SCAS

Finally, the American Veterinary Medical Association ' s Committee on the Human-Animal Bond defines the human/animal bond as, “ a mutually beneficial and dynamic relationship between people and other animals that is influenced by behaviors that are essential to the health and well-being of both. This includes, but is not limited to, emotional, psychological, and physical interactions of people, other animals, and the environment ” (JAVMA, 1998).

Human-Animal Bond - an overview | ScienceDirect Topics

The phrase "Human-Animal Bond" also known as HAB began to emerge as terminology in the late 1970s and early 1980s. Research into the nature and merit of the human–animal bond began in the late 18th century when, in York, England, the Society of Friends established The Retreat to provide humane treatment for the mentally ill. By having patients care for the many farm animals on the estate, society officials theorized that the combination of animal contact plus productive work would ...

Human bonding - Wikipedia

I ' m a passionate advocate for the human-animal bond — that's not a surprise to anyone. That link between us and our dogs, cats, horses, birds and other pets goes beyond unconditional love and companionship. The invisible ties that bind us to our pets can have a dramatic impact on our lives and our health.
