Thoughtful and challenging, this book argues for a reassessment of the role historically played by Islam in Africa, and offers new hope for increased mutual understanding between African people of different faiths. Drawing on a wealth of sources, from the colonial period to the most up-to-date scholarship, the author challenges the widely held perception that, while Christianity oppressed and subjugated the African people, Islam fitted comfortably into the indigenous landscape. Instead, this penetrating account reveals Muslim settlers to be as guilty of enforcing slavery and conversion as those of their more maligned sister tradition. Only with an acknowledgement of the true roles of both faiths in African history, suggests Azumah, can the people of both traditions move themselves and their continent towards a new future of tolerance and self-awareness.

This new book reassess the presence of Islam in Africa.

The civilisation of medieval Muslim Spain is perhaps the most brilliant and prosperous of its age and has been essential to the direction which civilisation in medieval Europe took. This volume is the first ever in any language to deal in a really comprehensive manner with all major aspects of Islamic civilisation in medieval Spain.

Nowhere else in the world have both Islam and Christianity been more instrumental in shaping the history of a people and their way of life than in Africa. African Muslims and Christians have a lot in common, including kinship ties, shared languages and citizenship. Yet, despite the centuries of deep historical links and harmonious existence between the two religions, new challenges threaten this harmony. Conflicts involving Christians and Muslims in places like Sudan, Nigeria and Ivory Coast are common. These conflicts are fueled primarily by ignorance, stereotyping and prejudice, which in turn breed fear, suspicion and even hatred, in some cases leading to violence. My Neighbour's Faith sheds light on the beliefs and teaching of Islam by addressing matters of contemporary importance to Christians and the wider non-Muslim audience. It presents the human face of Islam--the face of a close relative, a neighbour, a teacher and even a head of state--in a balanced and critical way that gives a credible view of Islam.

The attacks of September 11, 2001, changed the way the world looks at Islam. And rightfully so, according to M.A. Khan, a former Muslim who left the religion after realizing that it is based on forced conversion, imperialism, and slavery: the primary demands of Jihad, commanded by the Islamic God Allah. In this groundbreaking book, Khan demonstrates that Prophet Muhammad meticulously followed these misguided principles and established the ideal template of Islamic Jihad for his future followers to pursue, and that Muslims have been perpetuating the cardinal principles of Jihad ever since. Find out the true nature of Islam, particularly its doctrine of Jihad, and what it means to the modern world, and also learn about The core tenets of Islam and its history The propagation of Islam by force and other means Islamic propaganda Arab-Islamic imperialism Islamic slavery and slave-trade And much more! The commands of Allah are perpetual in nature, so are the actions of Prophet Muhammad. Jihad has been the way to win converts to Islam since its birth fourteen centuries ago, and it won't change anytime soon. Find out why in Islamic Jihad.

The World Trade Center bombing, suicide attacks in Israel, the slaughter of tourists in Egypt and innocents in Algeria. One of the world's great religions, Islam has become identified today with senseless bloodshed, its followers branded as irrational fanatics with a penchant for violence. Ours is the era of the "Islamic threat." But another story remains to be told. Beyond the headlines, a transformation is under way in both the style and message of Islamic politics at the end of the twentieth century: a startling shift from militancy to democracy with vast implications for the West. Drawing on his years of reporting in more than a dozen countries of the Muslim world, Anthony Shadid charts the striking way in which the adolescence of yesterday's Islamic militants is yielding to the maturity of today's activists. Through interview and travelogue, he chronicles a new generation-in Lebanon, Egypt, Turkey and elsewhere-that is finding a more realistic and potentially more successful future through democratic politics. A crucial element of this change, and of Legacy of the Prophet , is his exploration of the failure of militant Islam in countries like Sudan and Iran, defeats that ironically may help make way for an alternative, democratic future. The transformation promises a better future for a region long ruled by soldiers and despots. For the West, it offers a compelling opportunity to find common ground with the Muslim world. But to do so, the book argues that we must make the difficult choice of supporting the emergence of democratic Islamic movements, possibly even allowing to come to power governments that, as it stands, have no love for the West. Legacy of the Prophet promises to redefine the debate over the future of political Islam.

A compelling study of the little known contributions of Islam's cultural, artistic, and scientific accomplishments to Western civilization

A comprehensive study of the Eastern slave trade by an eminent British scholar A companion volume to The Black Diaspora, this groundbreaking work tells the fascinating and horrifying story of the Islamic slave trade. Islam's Black Slaves documents a centuries-old institution that still survives, and traces the business of slavery and its repercussions from Islam's inception in the seventh century, through its history in China, India, Iran, Turkey, Egypt, Libya, and Spain, and on to Sudan and Mauritania, where, even today, slaves continue to be sold. Ronald Segal reveals for the first time the numbers involved in this trade--as many millions as were transported to the Americas--and explores the differences between the traffic in the East and the West. Islam's Black Slaves also examines the continued denial of the very existence of this sector of the black diaspora, although it survives today in significant numbers; and in an illuminating conclusion, Segal addresses the appeal of Islam to African-American communities, and the perplexing refusal of Black Muslim leaders to acknowledge black slavery and oppression in present-day Mauritania and Sudan. A fitting companion to Segal's previous work, Islam's Black Slaves is a fascinating account of an often unacknowledged tradition, and a riveting cross-cultural commentary.
