The Measure of Civilization: How Social Development ...

The Kardashev scale is a method of measuring a civilization's level of technological advancement based on the amount of energy they are able to use. The measure was proposed by Soviet astronomer Nikolai Kardashev in 1964. The scale has three designated categories: A Type I civilization, also called a planetary civilization,can use and store all of the energy available on its planet. A Type II civilization, also called a stellar civilization,can use and control energy at the scale of its ...

In this book, Ian Morris argues that to understand the development of East and West, we need to look beyond 'long-term lock-in' theories and 'short-term accident' theories. Instead, we need to measure social development, a group's ability to master its environment to get things done, and use the results to look at the patterns of history

The Measure of Civilisation : How Social Development Decides the Fate of Nations. In Why the West Rules - For Now Ian Morris argues that to understand the development of East and West, we need to look beyond 'long-term lock-in' theories (that suggest it was inevitable) and 'short-term accident' theories. Instead, we need to measure social development - a group's ability to master its environment to get things done - and use the results to look at the patterns of history.
