A classic book on memory improvement. Thoroughly recommended. Has improved my memory from being so bad that it made me a liability at work to being one of my strongest assets. Would be a solid 5 stars if it wasn't for the font size. Rather small dense text makes for difficult reading if your eyes aren't what they used to be.

They tell me that my memory will never be the same, that I'll start forgetting things. At first just a little, and then a lot. So I'm writing to remember. Sammie McCoy is a girl with a plan: graduate at the top of her class and get out of her small town as soon as possible. Nothing will stand in her way--not even the rare genetic disorder the doctors say will slowly steal her memories and then her health. So the memory book is born: a journal written to Sammie's future self, so she can remember everything from where she stashed her study guides to just how great it feels to have a best friend again. It's where she'll record every perfect detail of her first date with longtime-crush Stuart, a gifted young writer home for the summer. And where she'll admit how much she's missed her childhood friend Cooper, and the ridiculous lengths he will go to make her laugh. The memory book will ensure Sammie never forgets the most important parts of her life--the people who have broken her heart, those who have mended it--and most of all, that if she's going to die, she's going to die living. This moving and remarkable novel introduces an inspiring character you're sure to remember, long after the last page.

Heartfelt and comforting, The Memory Box will help children and adults talk about this very difficult topic together. The story that you have asked me to tell you does not begin with the pitiful ugliness of Lloyd's death. It begins on a long-ago day in August when the sun seared my blistered face and I was nine years old and my father and mother sold me to a strange man. Memory, the narrator of Petina Gappah's *The Book of Memory*, is an albino woman languishing in Chikurubi Maximum Security Prison in Harare, Zimbabwe, after being sentenced for murder. As part of her appeal, her lawyer insists that she write down what happened as she remembers it. The death penalty is a mandatory sentence for murder, and Memory is, both literally and metaphorically, writing for her life. As her story unfolds, Memory reveals that she has been tried and convicted for the murder of Lloyd Hendricks, her adopted father. But who was Lloyd Hendricks? Why does Memory feel no remorse for his death? And did everything happen exactly as she remembers? Moving between the townships of the poor and the suburbs of the rich, and between past and present, the 2009 Guardian First Book Award-winning writer Petina Gappah weaves a compelling tale of love, obsession, the relentlessness of fate, and the treachery of memory.
