and services which meet internationally accepted quality standards is the only platform on which Jamaica can compete and take its place as a strong player in the global marketplace.

National Quality Infrastructure | MICAF
Quality Infrastructure. In a modern world with rapidly growing international trade, countries compete less based on the availability of natural resources, geographical advantages and lower cost of labor, and more on the factors related to the ability of firms to access and compete in new markets. One of these factors is the ability to demonstrate quality and safety of goods and services and to comply with
