During the high points of Israel's history as a nation, the prophets were subtle guides who provided wisdom to God-fearing kings and other leaders. For example, Nathan helped David get back on course after his disastrous affair with Bathsheba, (see 1 Samuel 12:1-14). Similarly, prophets like Isaiah and Daniel were largely respected in their day.

Expressing dissatisfaction with current critical theories of Israelite prophecy, which have regularly depended on the categories of office and charisma to designate essential features, Petersen looks instead to modern 'role theory' for a conceptual apparatus which can take account not only of what prophets regularly did in common but also of the significant variety apparent in Israelite prophetic performance.

Chronicles the ancient history of Israel and its prophets, from Samson to Elijah.

The Old Testament is an ancient collection of theological reflections of life with God that the church has claimed as authoritative Scripture. Whereas most introductory books march from Genesis to Malachi, this book engages four important leadership roles across the breadth of the Old Testament canon: king, prophet, priest, and sage. Despite the obvious differences between the societies of ancient Israel and modern America, lessons can be learned from our ancestors in the faith. This engaging volume is intended for people who want to know more about the Old Testament, whether in personal study, church groups, college classrooms, or seminary courses. The book may be used profitably in concert with *Theological Themes of the Old Testament: Creation, Covenant, Cultus, and Character* (Cascade Books, 2010).

The 18 essays by members of the Canadian Society for Biblical Studies published in this volume showcase the work of leading authorities on ancient Israelite and Jewish historiography as it intersects with the phenomenon of prophecy. A deep divide exists between the traditions of historiography and prophecy in the academic study of the Hebrew Bible, and the concern of the contributors is to close that gap, to expose the close relationship between these two traditions in the literature of the Hebrew Bible. The first section of the book explores prophecy and prophets in ancient Israelite and Jewish historiographic books (Torah, Deuteronomistic History, Chronicles, Ezra-Nehemiah, Second Temple Jewish historiography). The second section surveys historiography in Israelite and Jewish prophetic books (Isaiah, Jeremiah, Ezekiel, Book of the Twelve, Daniel, 1 Enoch). The contributors engage diverse methodological perspectives in these studies, the goal first being to show the role that the prophets played within the great Hebrew historiographic works and, second, to demonstrate the role that historiography plays within the great Hebrew prophetic works; this makes it clear that the influence is bidirectional. *Prophets, Prophecy, and Ancient Israelite Historiography* will be of value for advanced students and scholars working on historiographic and prophetic materials in the ancient Israelite and Jewish traditions, featuring the best of research and analysis and interacting with many major ancient literary traditions of historiography and prophecy.

Designed for use in upper-level college courses and seminary courses on the prophets

Biblical Studies Biblical texts create worlds of meaning, and invite readers to enter them. When readers enter such textual worlds, which are often strange and complex, they are confronted with theological claims. With this in mind, the purpose of the *Interpreting Biblical Texts* series is to help serious readers in their experience of reading and interpreting by providing guides for their journeys into textual worlds. The controlling perspective is expressed in the operative word of the title--interpreting. The primary focus of the series is not so much on the world behind the texts or out of which the texts have arisen as on the worlds created by the texts in their engagement with readers. Although these books of the prophets are based upon the careers and experiences of some of the most talented and provocative individuals of their times, the books must be read first as literature. Each book displays its own unique organization, literary characteristics, and theological outlook in presenting the prophets. In the case of Jeremiah, interpreters must even consider two distinctive forms of the book in the Hebrew Bible and the Greek Septuagint. By guiding the reader through the literary structure and language of each of the prophetic books as well as the social roles of the individual prophets, this volume opens the reader to greater understanding and appreciation of the prophets of Israel and Judah. "Fact packed and crystal clear, Marvin Sweeney's *Interpreting Biblical Texts: The Prophetic Literature* invites readers to tour the landscape of ancient Israel's Latter Prophets corpus. Sweeney serves as a first-rate guide, equipping readers with basic knowledge to grasp, and grapple with, the literary legacies of the canonical prophets. True to the series title, he interprets texts with an eye to major, dynamic themes in Jewish and Christian traditions. The volume proves a reliable guidebook for readers wishing not only to survey, but also to engage in dialogue with, ancient Israel's canonical prophets." Kathryn Pfisterer Darr, Professor of Hebrew Bible, Boston

University "The aim of the series Interpreting Biblical Texts is pedagogical. This well-written, easy to follow, and coherent book serves its purpose well. More importantly, it certainly invites and guides its readers in the enterprise of interacting with the prophetic books in a way that is informed by recent, academic scholarship on this literature." Ehud Ben Zvi, History and Classics & Interdisciplinary Program of Religious Studies, University of Alberta "This is a new and interesting approach to the prophetic literature, which will be illuminating for theological reflection in our own post-Holocaust era." John J. Collins, Holmes Professor of Old Testament, Yale Marvin A. Sweeney is Professor of Hebrew Bible, Claremont School of Theology, and Professor of Religion at Claremont Graduate University.

Examines the varied, enormously sophisticated contents of the Bible and sees how certain Western authors were inspired by them.

Given that Pope Francis is a popular global religious leader, and in the light of the lessons drawn from the nature, meaning, and functions of Israel's prophets, this tripartite work historically, pastorally, and theologically examines whether, and how Francis' teaching, visits, outreach to the poor, preaching, and recent biblically based writings (Lumen Fidei, Evangelii Gaudium, Amoris Laetitia, Laudato Si', Gaudete et Exsultate, Letters, and Messages) have had any prophetic effects or impact on contemporary society.
