In the 20th century, religious existentialists proposed that revelation held no content in and of itself but rather that God inspired people with his presence by coming into contact with them.

This study is unique in its comprehensive account of the theology of Revelation, and is original in its exposition of the Book's message.

Join New Testament scholar Thomas Schreiner as he explores the meaning and purpose of the book of Revelation. The book of Revelation can feel more intimidating to read than other books of the Bible. It invites readers into a world that seems confusing and sometimes even strange: golden lampstands, seven seals, a dragon, and a rider on a white horse. But at its core, Revelation is a message of hope written to Christians facing hardship, and it's worth the effort to read it and understand it. In this first volume in the New Testament Theology series, trusted scholar Thomas Schreiner walks step-by-step through the book of Revelation, considering its many themes—the opposition believers face from the world; the need for perseverance; God as sovereign Creator, Judge, and Savior—as well as its symbolic imagery and historical context. The Joy of Hearing brings clarity to the content and message of Revelation and explores its relevance for the church today.

The final book of the Bible, Revelation prophesies the ultimate judgement of mankind in a series of allegorical visions, grisly images and numerological predictions. According to these, empires will fall, the "Beast" will be destroyed and Christ will rule a new Jerusalem. With an introduction by Will Self.

Of all the books of the Bible, few are as fascinating or as bewildering as Revelation. Its images grip the imagination: four grim horsemen, the Antichrist, the ten-horned beast, the ultimate battle at Armageddon, and, of course, 666, the "mark of the beast," variously interpreted to signify everything from Hitler and Krushchev to credit cards and the Internet. Is the book of Revelation a blueprint for the future that needs decoding if we want to understand current events? Is it a book of powerful imagery, with warnings and promises for the church throughout the ages? Or is it essentially an imaginative depiction of historical events in the first century? Four Views on the Book of Revelation explores the four main views in which Revelation is understood: preterist, idealist, classical dispensationalist futurist, and progressive dispensationalist. The interactive Counterpoints forum allows each author not only to present his view, but also to offer brief commentary on other views presented. This evenhanded approach is ideal for comparing and contrasting stances in order to form a personal conclusion about the interpretation and meaning of Revelation. The Counterpoints series provides a forum for comparison and critique of different views on issues important to Christians. Counterpoints books address two categories: Church Life and Bible and Theology. Complete your library with other books in the Counterpoints series.

Professor Gunton asks whether there is more to be said for the motion of Christianity as a 'revealed religion; than some of the more simplified recent treatments allow. He analyses the concept of revelation, illustrating its importance for understanding even beyond religious purposes. He contends that natural theology and natural revelation are distinct categories and examines why they are so often confused. He considers revelation in relation to scripture and tradition, and the nature of inspiration.

This title was first published in 2000. From the work of Hegel and Schelling to the dialectical theology of Barth, Bultmann and Gogarten, "Revelation" has developed a long, rich tradition of diverse thought, as well as many misunderstandings. Meaning, first and foremost, "God's encounter with those to whom God wishes to communicate God's own self", Revelation seeks to be recounted and communicated to others. As a theological expression, Revelation aims to direct our attention to the modes and areas in which we have a basis for expecting encounter with God - through stories, nature, the world as creation. From a rediscovered emphasis on "story", narrative theology has emerged - a concept the English-speaking world has welcomed for its neutrality between history and imaginative fiction and stress on narrative rather than doctrinal dimension of biblical text. This volume brings into relationship a concern with theology of revelation and an interest in the theology of story or narrative theology.

In this substantial volume, Thomas Schreiner takes up the study of New Testament theology, looking for the themes that emerge from a detailed reading of the whole rather than considering the individual writings separately. Two themes in particular emerge. The first concerns redemptive history and the kingdom of God. The New Testament writers adopt the Old Testament vision of God's reign and affirm that it has come in Jesus Christ, although final fulfillment is yet to come. Second, the ultimate goal of the kingdom is God's glory. Schreiner goes on to relate these themes to the life of the believer and the community of faith. Pastors and students will find this a comprehensive and illuminating survey of the unifying themes found throughout the New Testament.
