Now he is showing signs of early dementia, and his work on the tunnels of the Trans-Israel Highway is no longer possible. To keep his mind sharp, Zvi decides to take a job as the unpaid assistant to Asael Maimoni, a young engineer involved in a secret military project: a road to be built inside the massive Ramon Crater in the northern Negev Desert. The challenge of the road, however, is compounded by strange circumstances. Living secretly on the proposed route, amid ancient Nabatean ruins, is a Palestinian family under the protection of an enigmatic archaeological preservationist. Zvi rises to the occasion, proposing a tunnel that would not dislodge the family. But when his wife falls sick, circumstances begin to spiral . . . The Tunnel--wry, wistful, and a tour de force of vital social commentary--is Yehoshua at his finest.

This book traces Peter Howard, who was to become one of The Wooden Horse escapers, from his being shot down, through his capture, interrogation and first two POW camps. It gets into the mind of a man determined to escape his captors. It shows that for all the many schemes dreamt up, very few ever got started and of those only a tiny handful ever came to fruition – and of those a ‘home run’ was as rare as a lottery win. But none of this could suppress the determination, ingenuity and courage of those who were driven to try. This is a thrilling opportunity to read what is virtually ‘lost’ masterpiece of the Prisoner of War escaping genre.

A thrilling Cold War narrative of superpower showdowns, media suppression, and two escape tunnels beneath the Berlin Wall. In the summer of 1962, the year after the rise of the Berlin Wall, a group of young West Germans risked prison, Stasi torture, and even death to liberate friends, lovers, and strangers in East Berlin by digging tunnels under the Wall. Then two U.S. television networks heard about the secret projects and raced to be first to document them from the inside. NBC and CBS funded two separate tunnels in return for the right to film the escapes, planning spectacular prime-time specials. President John F. Kennedy, however, was wary of anything that might spark a confrontation with the Soviets, having said, "A wall is better than a war," and even confessing to Secretary of State Dean Rusk, "We don't care about East Berlin." JFK approved unprecedented maneuvers to quash both documentaries, testing the limits of a free press in an era of escalating nuclear tensions. As Greg Mitchell's riveting narrative unfolds, we meet extraordinary characters: the legendary cyclist who became East Germany's top target for arrest; the Stasi informer who betrays the "CBS tunnel"; the American student who aided the escapes; an engineer who would later help build the tunnel under the English channel; and the young East Berliner who fled with her baby, then married one of the tunnelers. *The Tunnels* captures the chilling reach of the Stasi secret police as U.S. networks prepared to "pay for play" but were willing to cave to official pressure, the White House was eager to suppress historic coverage, and ordinary people in dire circumstances became subversive. *The Tunnels* is breaking history, a propulsive read whose themes still reverberate.
