I have a Toro GTS 5 OHV rear bagger with rear wheel drive. It is an old machine I bought in 1989. Been a good starter and working machine until the last time I used it a few weeks ago. Did some mowing, let it cool down, washed it extensively, and now no starting, as if the water got down inside and caused some issue.

Now if you do a lot of cool weather mowing, consider using Toro's synthetic engine oil, which tends to flow better at lower temperatures making it easier to start the engine. If weather is not the issue, check the air filter. A dirty filter chokes off air to the engine making it hard to start so check to see if yours needs to be replaced.
