In seventeenth century Italy, overcrowding, violent political uprising, and plague led an astonishing number of abandoned and orphaned children to overwhelm the cities. Out of the piety of private citizens and the apathy of local governments, the system of conservatori was created to house, nurture, and train these fanciulli vaganti (roaming children) to become hatters, shoemakers, tailors, goldsmiths, cabinet makers, and musicians - a range of practical trades that might sustain them and enable them to contribute to society. Conservatori were founded across Italy, from Venice and Florence to Parma and Naples, many specializing in a particular trade. Four music conservatori in Naples gained particular renown for their exceptional training of musicians, both performers and composers, all boys. By the eighteenth century, the graduates of the Naples conservatories began to spread across Europe, with some 600 boys formerly in residence beginning to dominate the European musical world. Other conservatories in the country - including the Paris Conservatory - began to imitate the principles of the Naples' conservatory's training, known as the partimento tradition. The daily lessons and exercises associated with this tradition were largely lost-until author Robert Gjerdingen discovered evidence of them in the archives of conservatories across Italy and the rest of Europe. Compellingly narrated and richly illustrated, Child Composers in the Old Conservatory follows the story of these boys as they undergo rigorous training with the conservatory's maestri and eventually become maestri themselves, then moves forward in time to see the influence of partimenti in the training of such composers as Claude Debussy and Colette Boyer. Advocating for the revival of partimenti in modern music education, the book explores the tremendous potential of this tradition to enable natural musical fluency for students of all ages learning the craft today.

In this acclaimed memoir, Meslekia recalls his boyhood in the arid city of Jijiga, Ethiopia, and his journey to manhood during the 1970s and 1980s. He traces his personal evolution from child to soldier--forced at the age of eighteen to join a guerrilla army. And he describes the hardships that consumed Ethiopia after the fall of Emperor Haile Selassie and the rise to power of the communist junta, in whose terror thousands of Ethiopians died. Part autobiography and part social history, Notes from the Hyena's Belly offers an unforgettable portrait of Ethiopia, and of Africa, during the defining and turbulent years of the last century.

Sam Kieth's own quirky brand of brilliance has been wowing fans and inspiring cartoonists for more than 25 years. As one of the earliest creators for Image Comics, Kieth created The Maxx-a homeless superhero who lives in a box. Both Maxx and his social worker friend Julie share adventures in both the real world and in "the Outback," a fantasy realm inhabited by their jungle-inspired totems. Collects issues #1-4.

There are two sides to every coin, every story, and every person. No matter how hard you try to hide that second face away, you can never get rid of it. That's what one man is about to learn when his under-developed feminine side materializes into a very real, bubble gum-chewing bimbo and turns his world upside down!
