Your Black Hills fishing trip won't be complete without this comprehensive guide. It includes everything you need: maps, descriptions of every stream and lake, and a look at the history of the Black Hills. You will appreciate this handy, useful book.

An Advanced Course in Fly Fishing The mission of The Little Red Book of Fly Fishing was to demystify and un-complicate the tricks and tips that make a great trout fisher. There are no complicated physics lessons in that book. Rather, The Little Red Book of Fly Fishing offered a simple, digestible primer on the basic elements of fly fishing: the cast, presentation, reading water, and selecting flies. In this, The Little Black Book of Fly Fishing, authors Kirk Deeter and Chris Hunt take you to the next level, building upon what Deeter and Charlie Meyers did in The Little Red Book. The Little Black Book will help fly fishers build upon what they learned in the Little Red Book. Read this valuable, thought-provoking guidebook, and you'll be at the point where you'll be catching fish when no one else is, and you'll know exactly why you are. Advanced casting, presentation, reading the water, fly selection, and much more, including proper gear selection, are all covered. The table of contents, below, explains it all. The Little Black Book of Fly Fishing Acknowledgments Foreword Introduction Part 1: CASTING A double-haul is really important, and not just in the salt Teaching someone new? Start with Tenkara Everybody needs a casting lesson. Everybody. Casting longer leaders 'Casting' nymphs under indicators Get a practice rod How to cast a 15-foot leader (and why you should) Casting at taillights The cast killer Your casting stroke follow joints by size Challenge your cast Great casts are the ones that get bit Score your casts like golf strokes; fewer is better The sand-save cast A reach cast is worth a thousand mends Five feet short on purpose (the linear false cast) Be Lefty in the salt, and Rajeff in the fresh Give yourself a "D" Beating wind Don't out-kick your coverage Part 2: PRESENTATION Fast strip for saltwater predators A swirl, not a rise Casting streamers upstream Carp: Not just for city kids Step out of your comfort zone What are the birds after? The potato chip fakeout Why natives matter But I still love brown trout best Micro-drag: where you stand matters You'll never beat a fish into submission Take it to the lake Float tubes and garbage cans Food never attacks fish A case for the dry-fly snob Go Deep in the name of fish research Roll fish for fun They're in skinny water for a reason The cafeteria line The escape hatch Part 3: READING WATER (AND FISH) The stripset Covering water Skate and twitch big flies in low light Rod tip down for streamers Weight an unweighted fly with fly-tying beads instead of split-shot Urban angling Get in shape. Stay in shape. Dry your fly first, apply floatant second Most fish (and some bugs) face upstream—present accordingly Head up, game over Step when you streamer Babysit your flies ID the "player" and get after it Gin clear water Flat calm water Developing "TSP" (trout sensory perception) A fish doesn't see like humans do Walk on The 10 second rule Like a dog on a leash Tip up or tip down? The keys to spotting fish The full-court press usually fails Use the whole spice cabinet River personalities and handshakes What the cloud layers tell you Knowing what they are not doing is equally important as knowing what they are Upwelling v. the straight seam The speed of the strike is proportionate to the depth of the water (in rivers) See this, do that Part 4: FLIES UV resin in home-tied flies Nymphs on the swing Multi-purpose flies Sparse for saltwater UV parachute posts Tip the fly for tying parachute posts Caddis: the most dishonest fly ever Wire or tinsel for dry flies The "pellet fly" you can feel good about Practice, practice, practice Peacock herl ... and why it works The mystery of the Purple Prince Nymph Profile is everything The Adams family Lethal mice The Mole Fly miracle Bob Behnke on colors Terrestrials are opportunity bugs The end of the duck Colors change with depth Un-matching the hatch The monkey poo fly Part 5: MISC. (Everything from gear, to fighting fish and angler ethics) Fly reels for trout are just line holders Fly reels matter for saltwater fish Faster rods aren't always better You get what you pay for Pride cometh before the fall Sheet-metal screws Wire for predators Quick-dry attire for the flats ABC. Anything But Cotton Snip your tippet at an angle Rod weight depends on fly types The best loop knot... perfection 7X tippet is BS Colors and camo above the surface Guitars and fly rods Bucket list places Tiger snakes and long hemostats It's a long way to the top if you wanna rock 'n roll Score fishing like cricket It's okay to fail I cheer for the fish

This Little Trout Fly-Fishing book is a collection of fishing gems. One liners, if you will, that hold many facts and truths. Humor that is obvious too the enlightened and strange wits of wisdom, that other fly fisherman with a somewhat twisted, sense of humor will enjoy. From one fly fisherman to another.

Published in 1889, J.A. Henshall wrote this book as a supplement to his highly successful Book of the Black Bass. This volume is complete with finely illustrated examples of the tools and tackle associated with the sport.

A modern tribute to an ageless pastime, and a practical guide to the art, philosophy, and rituals of fly fishing, by an expert, lifelong angler. In *The Optimist*, David Coggins makes a case for the skills and sensibility of an enduring sport and shares the secrets, frustrations, and triumphs of the great tradition of fly fishing, which has captivated anglers worldwide. Written in witty, keenly observed prose, each chapter focuses on a specific place, fish, and skill. Few individuals, for example, have the visual acuity required to catch the nearly invisible bonefish of the Bahamas flats. Or the patience to land the elusive Atlantic salmon, “the fish of a thousand casts,” in eastern Canada. Pursuing these challenges, Coggins, “a confirmed obsessive,” travels to one fishing paradise after another, including the great rivers of Patagonia, private chalk streams in England, remote ponds in Maine, and New York City’s Jamaica Bay. In each setting, he chronicles his fortunes and misfortunes with honesty and humor while meditating on how fishing teaches focus, inner stillness, and a connection to the natural world. Perfect for the novice, the enthusiastic amateur, and the devoted angler alike, *The Optimist* offers a practical path toward enlightenment while providing a welcome escape into one of the world’s ancient pastimes.

Two highly respected outdoor journalists, Kirk Deeter of *Field & Stream* and Charlie Meyers of the *Denver Post*, have cracked open their notebooks and shared straight-shot advice on the sport of fly fishing, based on a range of new and old experiences—from interviews with the late Lee Wulff to travels with maverick guides in Tierra del Fuego. The mission of *The Little Red Book of Fly Fishing* is to demystify and un-complicate the tricks and tips that make a great trout fisher. There are no complicated physics lessons here. Rather, conceived in the “take dead aim” spirit of Harvey Penick’s classic instructional on golf, *The Little Red Book of Fly Fishing* offers a simple, digestible primer on the basic elements of fly fishing: the cast, presentation, reading water, and selecting flies. In the end, this collection of 240 tips is one of the most insightful, plainly spoken, and entertaining works on this sport—one that will serve both novices and experts alike in helping them reflect and hone in their approaches to fly fishing.
