~~Free Four Temperament Test with 98% accuracy | 4 Temperaments~~

The four temperament theory is a proto-psychological theory which suggests that there are four fundamental personality types: sanguine, choleric, melancholic, and phlegmatic. Most formulations include the possibility of mixtures among the types where an individual's personality types overlap and they share two or more temperaments. Greek physician Hippocrates described the four temperaments as part of the ancient medical concept of humourism, that four bodily fluids affect human personality traits

~~Four temperaments — Wikipedia~~

As already mentioned above, four basic temperament types consist of sanguine, choleric, phlegmatic, and melancholic where the first two belong to extroverts while the last two are considered introverts. Most of us are a blend of two temperaments but one dominates the other anyway, especially if you have an "extrovert-introvert" combination.
