This publication provides an overview of the importing process and contains general information about import requirements. This edition contains much new and revised material brought about because of changes in the law, particularly the Customs Modernization Act. The Customs modernization provisions has fundamentally altered the process by shifting to the importer the legal responsibility for declaring the value, classification, and rate of duty applicable to entered merchandise.Chapters cover entry of goods, informed compliance, invoices, assessment of duty, classification and value, marking, special requirements for alcoholic beverages, motor vehicles and boats, import quotas, fraud, and foreign trade zones.In addition to the material provided by the U. S. Customs Service, the private commercial publisher of this book has provided a bonus chapter on how to build a tax-free import-export business.

“Will the tiger be menacing; will the ocean be threatening; will the island be something out of Frankenstein or will it be an Eden?”—Yann Martel *Life of Pi*, first published in 2002, became an international bestseller and remains one of the most extraordinary and popular works of contemporary fiction. In 2005 an international competition was held to find the perfect artist to illustrate Yann Martel’s Man Booker Prize–winning novel. From thousands of entrants, Croatian artist Tomislav Torjanac was chosen. This lavishly produced edition features forty of Torjanac’s beautiful four-color illustrations, bringing *Life of Pi* to splendid, eye-popping life. Tomislav Torjanac says of his illustrations: “My vision of the illustrated edition of *Life of Pi* is based on paintings from a first person’s perspective—Pi’s perspective. The interpretation of what Pi sees is intermeshed with what he feels and it is shown through [the] use of colors, perspective, symbols, hand gestures, etc.”
