In the wake of the terrorist attacks on September 11, 2011, discussions on ties between Islamic religious education institutions, namely madrassahs, and transnational terrorist groups have featured prominently in the Western media. In the frenzied coverage of events, however, vital questions have been overlooked: What do we know about the madrassahs? Should Western policymakers be alarmed by the recent increase in the number of these institutions in Muslim countries? Is there any connection between them and the “global jihad”? Ali Riaz responds to these questions through an in-depth examination of the madraassahs in Pakistan, Bangladesh, and India. In Faithful Education, he examines these institutions and their roles in relation to current international politics.

The No Nonsense Guide to Minority Rights in South Asia is a practical primer on issues related to minority rights in South Asian countries. It delves into all major concepts and cutting edge theories that constitute the evolving minority rights discourse. The ¶minority¶ in South Asia is typically characterized by ¶non-domination¶ and powerlessness, two major markers apart from language, culture, religion and ethnicity. This book explores the process of this kind of ¶minoritization¶ in the region, evaluating the weaknesses of constitutional and legal frameworks that contribute to it. In doing so, it examines in detail the State’s role in the socio-political recognition, protection and exclusion of minorities. By taking a rights-based approach, the book argues that nation-building in South Asia has been devoid of the commitment to expand the democracy and equality agenda and has instead been dominated by majoritarian and authoritarian policies. While elaborating on such politics of recognition and inequality, the author goes on to explore and analyze the ethnic composition of each South Asian country¶India, Pakistan, Nepal, Bangladesh, Sri Lanka and Bhutan. She also highlights the role of minority agencies in resisting injustice and exclusion, thus providing a comparative and holistic understanding of the minority discourse in the region. This book is an important reference resource for students and academics working in the areas of politics and international relations, especially on human rights, minority rights and state-building. It will also be a useful guide for activists.
