This is the newly updated, 2015 version of My Saigon My Saigon is a complete, in-depth guide to visiting Saigon, also known as Ho Chi Minh City, Vietnam. I'm a Saigon native, and in this book, I show you locals' places you won't find in any other guidebook. I got tired of seeing tourists in Saigon following incorrect information and tourist-trap recommendations in other Saigon guidebooks, so I wrote my own guidebook, one only a Saigon native could write.Do you know that Saigon locals consider Quan An Ngon (where every other guidebook tells you to go) a terrible restaurant? Do you know that near Ben Thanh Market there's a Japantown full of Vietnamese college hipsters? And that down the road there's a cluster of music bars where those hipsters see live indie rock? Do you know what the guys offering you marijuana are up to? Do you know why you would probably hate a traditional Vietnamese massage? And do you know what the women in tight dresses trying to lure you in for a "massage" are all about? (It's not what you think!) Want to go to a neighborhood Buddhist temple, far outside the tourist circuit, where you can buy beautiful jade necklaces for under \$5 USD? (The same necklaces sold at the tourist markets for \$50+ USD.) How about going to a cat cafe for college students?Want to pick up Vietnamese chicks? (Hey, I'm blunt!) Fun fact: Vietnamese people don't all eat dog meat! But do you want to know why there is zero chance of you unknowingly being served dog meat in Vietnam?I cover all these topics in My Saigon. I even cover the basics of Vietnamese language, with language use and phrases, including fun Saigon slang you won't find in any official guide, how to make sense of signs, and how to deal with numbers and currency.Don't know where to stay? I recommend one street that's full of small hotels, all around \$30 USD per night. Choose your own hotel from the many on that street, because I'm not getting paid to sell you anything. Don't know where to eat? I guide you to a few great local Saigonese restaurants, and then tell you where to find authentic Saigon food among the tourist-trap food stalls of Ben Thanh Market.That's my Saigon. And this book will make my Saigon your Saigon.

Making sense of the wars for Vietnam has had a long history. The question "why Vietnam?" dominated American and Vietnamese political life for much of the length of the wars and has continued to be asked in the decades since they ended. This volume brings together the work of eleven scholars to examine the conceptual and methodological shifts that have marked the contested terrain of Vietnam War scholarship. Editors Marilyn Young and Mark Bradley's superb group of renowned contributors spans the generations—including those who were active during wartime, along with scholars conducting research in Vietnamese sources and uncovering new sources in the United States, former Soviet Union, China, and Eastern and Western Europe. Ranging in format from top-down reconsiderations of critical decision-making moments in Washington, Hanoi, and Saigon, to microhistories of the war that explore its meanings from the bottom up, these essays comprise the most up-to-date collection of scholarship on the controversial historiography of the Vietnam Wars.

This is the first book in English to examine local government and authority in Vietnam since the country's reunification in 1975. Beyond Hanoi addresses four questions: what local institutions and offices have authority to govern; who are the local officials and how do they get their positions; what do local governments do and whose interests do they serve; and what do residents say about local officials and governing institutions? Based on in-depth research, six chapters emphasize particular villages and districts in different parts of the country, one examines a ward in Hanoi, another focuses on Ho Chi Minh City, and one compares leaders in several provinces. To contextualize conditions today, two chapters analyse local government in Vietnam's long history. The opening chapter synthesizes the findings in this book with those in other studies by researchers inside and outside Vietnam.

Familial Properties is the first full-length history of Vietnamese gender relations in the precolonial period. Author Nhung Tuyet Tran shows how, despite the bias in law and practice of a patrilineal society based on primogeniture, some women were able to manipulate the system to their own advantage. Women succeeded in taking pragmatic advantage of socioeconomic turmoil during a time of war and chaos to acquire wealth and, to some extent, control what happened to their property. Drawing from legal, literary, and religious sources written in the demotic script, classical Chinese, and European languages, Tran argues that beginning in the fifteenth century, state and local communities produced laws and morality codes limiting women's participation in social life. Then in the seventeenth and eighteenth centuries, economic and political turmoil led the three competing states(the Mac, Trinh, and Nguyen)to increase their military service demands, producing labor shortages in the fields and markets of the countryside. Women filled the vacuum left by their brothers, husbands, and fathers, and as they worked the lands and tended the markets, they accumulated monetary capital. To protect that capital, they circumvented local practice and state law guaranteeing patrilineal inheritance rights by soliciting the cooperation of male leaders. In exchange for monetary and landed donations to the local community, these women were elected to become spiritual patrons of the community whose souls would be forever preserved by collective offering. By tracing how the women, local leaders, and court elites negotiated gender models to demarcate their authority, Tran demonstrates that despite the Confucian ethos of the times, survival strategies were able to subvert gender norms and create new cultural models. Gender, thus, as a signifier of power relations, was central to the relationship between state and local communities in early modern Vietnam. Rich and detailed in its use of documentary evidence from a range of archives, this work will be of great interest to scholars of Southeast Asian history and the comparative study of gender.

This historically grounded examination of the dynamics of contemporary society in Vietnam, including cultural, political and economic dimensions, focuses on dynamic tensions both within society and among societal forces, the state, and global capital.

This report provides a comprehensive assessment of Viet Nam's urban policies and analyses how national spatial planning for urban areas, along with specific sectoral policies, directly and indirectly affect Viet Nam's urban development.
