Flight vouchers: Is yours expiring soon? Here's what to do

Wash your hands often with soap and water for at least 20 seconds. This is especially important after blowing your nose, coughing, or sneezing; going to the bathroom; and before eating or preparing food. Use hand sanitizer if soap and water are not available. Use an alcohol-based hand sanitizer with at least 60% alcohol, covering all surfaces of your hands and rubbing them together until they feel dry.

What to Do If You Are Sick | CDC

What to do when your filling falls out or your tooth breaks? Don't panic, but do contact your dentist immediately. The decision for the best treatment will happen after a thorough examination of the tooth and a consultation. Not seeking immediate care could result in pain, discomfort and even loss of the tooth.
