The politics of Europe deals with the continually evolving politics within the continent of Europe. It is a topic far more detailed than other continents due to a number of factors including the long history of nation states in the region as well as the modern day trend towards increased political unity amongst the European states. The current politics of Europe can be traced back to historical events within the continent. Likewise geography, economy, and culture have contributed to the current

Politics of Europe - Wikipedia

The politics of the European Union are different from other organisations and states due to the unique nature of the European Union. The EU is similar to a confederation, where many policy areas are federalised into common institutions capable of making law;

## Differentiated Integration Palgrave Studies In European Union Politics

The Euro Area, the Schengen Area, and Airbus - the 'Anglosphere', the Franco-German 'motor' and Nordic cooperation – each illustrates how differentiation has become a pervasive feature of European integration. Which Europe? offers an authoritative and comprehensive examination of differentiated integration in its functional and its territorial aspects. It focuses on its implications for both the practice and the theory of European integration. Is it strengthening or weakening the EU and its Member States? Are territorial identities being undermined or strengthened? Are new theories of integration required? In particular, this book looks at the relationship between the growth in use of differentiated integration and the

widening of European Union membership, the broadening in its policy scope, and the deepening in integration.

Previously published as a special issue of West European Politics, this edited volume evaluates the extent to which a policy gap between inputs and outcomes exists with regard to immigration control.

This collection reflects on the origins and development of European political science and provide a critical assessment of the achievements and challenges lying ahead.

The Politics of Crisis in Europe explores the resilience of the European Union in the face of repeated crises perceived to threaten its very existence. While it is often observed after the fact that these crises serve as opportunities for integration, this is the first critical analysis to suggest that we cannot

# Read Online Which Europe The Politics Of

fully understand the nature and severity of these crises without recognising the role of societal reaction to events and the nature of social narratives about crisis, especially those advanced by the media. Through a close examination of the 2003 Iraq crisis, the 2005 constitutional crisis, and the 2010-12 Eurozone crisis, this book identifies a pattern across these episodes, demonstrating how narratives about crises provide the means to openly air underlying societal tensions that would otherwise remain under the surface, impeding further integration.

A European Politics of Education proposes a sociology of education establishing connections between empirical data coming from European-scale comparative surveys, normative assumptions structuring actors' representations and interpretative judgements, and a specific focus on Lifelong Learning policy areas. It invites readers to

think about the place of standards, expertise and calculations in the European space from a common perspective, supported by a tradition of critical sociology and European political studies. The book: Addresses an important agenda: how the policies and politics of supranational Europe are making a European educational space Contains a response to the emergence of new epistemic governance and instruments at European level Contains contributions from the EU and the UK which give a comprehensive selection of perspectives and analysis of the field as it concerns Europe The complexity of the contemporary European education policy space is addressed here with new lines of inquiry as well as a reflexive outlook, on standardization, policy-making and actor engagement. Students and researchers of European policy studies, education policy analysts and theorists will all be particularly interested readers.

## Differentiated Integration

How do political authorities build support for themselves and their rule? Doing so is key to accruing power, but it can be a complicated affair. The European Union, as a novel political entity, faces a particularly difficult set of challenges. The Politics of Everyday Europe argues that the legitimation of EU authority rests in part on a transformation in the symbols and practices of everyday life in Europe. The Single Market and the Euro, the legal category of European Citizen and policies promoting the free movement of people, EU public architecture, arts and popular entertainment, and EU diplomacy and foreign policy all generate symbols and practices that change peoples' day-to-day experiences naturalizing European governance. The modern nation-state has long used similar strategies of nationalism and 'imagined communities' to legitimize its

# Read Online Which Europe The Politics Of

political power. But the EU's cultural infrastructure is unique, as it navigates European national identities with a particularly banality, trying to make the EU seem complementary to, not in competition with, the nation-states. While this cultural legitimation has successfully underpinned the EU's surprising political development, Europe today is more often met with indifference by its citizens rather than affection. As economic and political crises have stretched European social solidarity to the breaking point, this book offers a clear theoretical framework for understanding how everyday culture matters fundamentally in the political life of the EU, and how the construction of meaning can be a potent power resource-albeit one open to contestation and subversion by the very citizens it calls into being.

This book presents a cultural history of

# Read Online Which Europe The Politics Of

European integration. It revisits the European Community 's postwar origins through the lens of symbolic representation and so reveals a hitherto unknown side to Europe 's notorious technocrats. They were not simply administrators: they were skillful marketing experts, clever spin doctors, and talented stage directors. After all, what made the European Community stand out among the multitude of postwar European organizations? This book argues that it was not so much its vaunted supranationalism, nor its economic significance; it was its self-proclaimed role as torchbearer of European unity. Combining archival research with media analysis, *The Symbolic Politics of European Integration* reviews Europe 's early parliaments, its early diplomacy, and its long search for "capital cities," from Strasbourg to Brussels. It tells the story of the political theater that staged an enterprise of

technocrats as the embodiment of a Europe united in peace and prosperity. This book is an invaluable resource for historians of postwar Europe, as well as for analysts of today ' s EU, who seek to understand how coal, steel, and tariffs became the stuff the European dream was made of.

The Routledge Handbook of the Politics of Migration in Europe provides a rigorous and critical examination of what is exceptional about the European politics of migration and the study of it. Crucially, this book goes beyond the study of the politics of migration in the handful of Western European countries to showcase a European approach to the study of migration politics, inclusive of tendencies in all geographical parts of Europe (including Eastern Europe, the Western Balkans, Turkey) and of influences of the European Union (EU) on countries in Europe and beyond. Each

expert chapter reviews the state of the art field of studies on a given topic or question in Europe as a continent while highlighting any dimensions in scholarly debates that are uniquely European. Thematically organised, it permits analytically fruitful comparisons across various geographical entities within Europe and broadens the focus on European immigration politics and policies beyond the traditional limitations of Western European, immigrant-receiving societies. The Routledge Handbook of the Politics of Migration in Europe will be essential reading and an authoritative reference for scholars, students, researchers and practitioners involved in, and actively concerned about, research on migration, and European and EU Politics.

The Routledge Handbook of East European Politics is an authoritative overview that will help a wide readership develop an

Understanding of the region in all its political, economic, and social complexity. Including Central Europe, the Baltic republics, South Eastern Europe, and the Western Balkans, as well as all the countries of the former Soviet Union, it is unrivalled in breadth and depth, affording a comprehensive overview of Eastern European politics provided by leading experts in the fields of comparative politics, international relations, and public administration. Through a series of cutting-edge articles, it seeks to explain and understand patterns of Eastern European politics today. The Routledge Handbook of East European Politics will be a key reference point both for advanced-level students developing knowledge about the subject, researchers producing new material in the area, and those interested and working in the fields of East European Politics, Russian Politics, EU Politics, and

This compelling history of Europe ' s Cold War follows the dramatic arc of the conflict that shaped the development of the continent and defined world politics in the second half of the twentieth century.

Focusing on European actors and events, Mark Gilbert traces the onset of the Cold War, the process of Stalinization in the Soviet bloc, and the difficulties of legitimation experienced by communist regimes in Hungary, Poland, and East Germany even after Stalin ' s death. He also shows how Washington ' s leadership and worldview was contested in Western Europe, especially by Great Britain and French president Charles de Gaulle. The book charts the growing weakness of the communist system in Eastern Europe and

# Read Online Which Europe The Politics Of

the economic and moral reasons for the system ' s eventual collapse. It highlights the central role of European leaders in the process of d é tente and in the diplomatic endgame that concluded the Cold War in 1990. Rather than simply a strategic standoff between the superpowers, Gilbert argues, the Cold War was a social and ideological conflict that transformed Europe from Lisbon to Riga. Fast-paced and readable, this political, intellectual, and social history illuminates a conflict that continues to resonate today.
