THE IRREVERENT, EYE-OPENING, AND HILARIOUS BOOK THAT DARES TO ASK... Why do so many high-profile black men date and marry the most ordinary white women? Why do so many other black men desire and covet the company of white women? And why does this subject deeply touch so many people of both races? Are these provocative questions matters of love, sex, revenge, power, or politics? All of the above, asserts Rajen Persaud in this illuminating, no-holds-barred book that will have you laughing with recognition while fundamentally changing the way you see just about everything -- from sex and marriage to your own gender and race in all its foibles, pretensions, and ultimate possibilities. Challenging every one of our preconceptions about mixed-race relationships, Rajen Persaud's commentary lights up a topic that has only deepened in intensity and relevance in the decades since Sidney Poitier asked the world "Guess who's coming to dinner?" The answers, so deeply ingrained in our fabric as a nation and even grounded in our past, force us to look at ourselves and our culture with new eyes while pondering matters of CELEBRITY: From Michael Jordan to Bryant Gumbel to Tiger Woods, high-profile affairs and marriages with no shortage of controversy. SEX: Are black men choosing white women -- or rejecting black women? RACE: How white male insecurity is the key to understanding racism. RELATIONSHIPS: Is it more than love that brings the races together? POLITICS: How fear is used to gain power, from sexual politics to global war. MEDIA: How movies and television keep black men running to white women. ...and much more. Get ready for Why Black Men Love White Women -- and finally understand the relationship phenomenon of our times.

This book is the first to explore the history of a powerful category of illicit sex in America ' s past: liaisons between Southern white women and black men. Martha Hodes tells a series of stories about such liaisons in the years before the Civil War, explores the complex ways in which white Southerners tolerated them in the slave South, and shows how and why these responses changed with emancipation. Hodes provides details of the wedding of a white servant-woman and a slave man in 1681, an antebellum rape accusation that uncovered a relationship between an unmarried white woman and a slave, and a divorce plea from a white farmer based on an adulterous affair between his wife and a neighborhood slave. Drawing on sources that include courtroom testimony, legislative petitions, pardon pleas, and congressional testimony, she presents the voices of the authorities, eyewitnesses, and the transgressors themselves—and these voices seem to say that in the slave South, whites were not overwhelmingly concerned about such liaisons, beyond the racial and legal status of the children that were produced. Only with the advent of black freedom did the issue move beyond neighborhood dramas and into the arena of politics, becoming a much more serious taboo than it had ever been before. Hodes gives vivid examples of the violence that followed the upheaval of war, when black men and white women were targeted by the Ku Klux Klan and unprecedented white rage and terrorism against such liaisons began to erupt. An era of terror and lynchings was inaugurated, and the legacy of these sexual politics lingered well into the twentieth century.

Seventy percent of black women are unmarried and are twice as likely as white women to remain unwed. Of those who do marry, black women more likely to marry down as black women in college outnumber black men to 2:1. Black women are also impacted by the insurgence of interracial marriages. In 2015, for instance, newlywed intermarriages for black men were 24 percent compared to 12 percent for black women. Through interviews, this book explores the reasons African American men chose to date or marry white women and other women outside of their race. With some advice from a matchmaker, minister, and African American men, the book will benefit women who are seeking to improve their relationships with their mates and find their happiness in life. It is my hope that the book will inspire black women and women of all races and nationalities to date whomever they choose without compromising their lifestyles or standards to do so.

There is no doubt that white women have good sex, looks, and desire when it comes to pleasing black men. Black men cannot stay away from white women because white women offer something black men understands, and that is fear. When it comes to black women, a black man can beat her and she will obey, however, a black man understands he has no chance in court when a white woman complains. So, he controls her with his penis, and bullshit. Black men have a problem today, see, a white woman see big cock, while black women see black men as no child-support-paying, abusing, lying afraid of responsibility half of a man. The black man is in trouble, whenever white women start thinking like black women.

A distinguished Stanford law professor examines the steep decline in marriage rates among the African American middle class, and offers a paradoxical-nearly incendiary-solution. Black women are three times as likely as white women to never marry. That sobering statistic reflects a broader reality: African Americans are the most unmarried people in our nation, and contrary to public perception the racial gap in marriage is not confined to women or the poor. Black men, particularly the most successful and affluent, are less likely to marry than their white counterparts. College educated black women are twice as likely as their white peers never to marry. Is Marriage for White People? is the first book to illuminate the many facets of the African American marriage decline and its implications for American society. The book explains the social and economic forces that have undermined marriage for African Americans and that shape everyone's lives. It distills the best available research to trace the black marriage decline's far reaching consequences, including the disproportionate likelihood of abortion, sexually transmitted diseases, single parenthood, same sex relationships, polygamous relationships, and celibacy among black women. This book centers on the experiences not of men or of the poor but of those black women who have surged ahead, even as black men have fallen behind. Theirs is a story that has not been told. Empirical evidence documents its social significance, but its meaning emerges through stories drawn from the lives of women across the nation. Is Marriage for White People? frames the stark predicament that millions of black women now face: marry down or marry out. At the core of the inquiry is a paradox substantiated by evidence and experience alike: If more black women married white men, then more black men and women would marry each other. This book not only sits at the intersection of two large and well- established markets-race and marriage-it responds to yearnings that are widespread and deep in American society. The African American marriage decline is a secret in plain view about which people want to know more, intertwining as it does two of the most vexing issues in contemporary society. The fact that the most prominent family in our nation is now an African American couple only intensifies the interest, and the market. A book that entertains as it informs, Is Marriage for White People? will be the definitive guide to one of the most monumental social developments of the past half century.

The data behind a distinct form of racism in online dating The Dating Divide is the first comprehensive look at "digital-sexual racism," a distinct form of racism that is mediated and amplified through the impersonal and anonymous context of online dating. Drawing on large-scale behavioral data from a mainstream dating website, extensive archival research, and more than seventy-five in-depth interviews with daters of diverse racial backgrounds and sexual identities, Curington, Lundquist, and Lin illustrate how the seemingly open space of the internet interacts with the loss of social inhibition in cyberspace contexts, fostering openly expressed forms of sexual racism that are rarely exposed in face-to-face encounters. The Dating Divide is a fascinating look at how a contemporary conflux of individualization, consumerism, and the proliferation of digital technologies has given rise to a unique form of gendered racism in the era of swiping right—or left. The internet is often heralded as an equalizer, a seemingly level playing field, but the digital world also acts as an extension of and platform for the insidious prejudices and divisive impulses that affect social politics in the "real" world. Shedding light on how every click, swipe, or message can be linked to the history of racism and courtship in the United States, this compelling study uses data to show the racial biases at play in digital dating spaces.

Why should a black man marry a white woman? This question is truly a reflection of the state of disfunction each black person experiences in the American social landscape. It defines why we hate ourselves so much. Who we are as a people, what our group behaviors display, and how we perceive one another are all affected by our own self perceptions. Do you look at yourself through the critical lens of a white person?Can you ever really love anyone if you don't love yourself?How can we find acceptance from within and add value to our relationships?This book seeks to define the scenarios where blacks fail each other daily and how each interaction can leave lasting detrimental effects which repeatedly cycle throughout the community.Should interracial relationships even happen? Does this question even matter if both the men and women of color don't wholeheartedly find value in themselves? Frankly put, if there is any hope for the future in the African American community, black men must learn a new level of accountability, commitment, and strength. If not, the answer is simple,A Black Man MUST Marry A White Women...Topics Include:Single mother homes Young black men in America, Aspiring single women, Light skin vs Dark skin women of color, Black men in the workplace, Interracial relationships, Black on Black crime

Called " powerful and provocative" by Dr. Ibram X. Kendi, author of the New York Times bestselling How to be an Antiracist, this explosive book of history and cultural criticism reveals how white feminism has been used as a weapon of white supremacy and patriarchy deployed against Black and Indigenous women, and women of color. Taking us from the slave era, when white women fought in court to keep " ownership " of their slaves, through the centuries of colonialism, when they offered a soft face for brutal tactics, to the modern workplace, White Tears/Brown Scars tells a charged story of white women ' s active participation in campaigns of oppression. It offers a long overdue validation of the experiences of women of color. Discussing subjects as varied as The Hunger Games, Alexandria Ocasio – Cortez, the viral BBQ Becky video, and 19th century lynchings of Mexicans in the American Southwest, Ruby Hamad undertakes a new investigation of gender and race. She shows how the division between innocent white women and racialized, sexualized women of color was created, and why this division is crucial to confront. Along the way, there are revelatory responses to questions like: Why are white men not troubled by sexual assault on women? (See Christine Blasey Ford.) With rigor and precision, Hamad builds a powerful argument about the legacy of white superiority that we are socialized within, a reality that we must apprehend in order to fight. "A stunning and thorough look at White womanhood that should be required reading for anyone who claims to be an intersectional feminist. Hamad ' s controlled urgency makes the book an illuminating and poignant read. Hamad is a purveyor of such bold thinking, the only question is, are we ready to listen?" —Rosa Boshier, The Washington Post
