This book examines the diplomatic activities and behind-the-scene negotiations which led to the Karun opening, including an 'Assurance' given by Britain to the Shah against a Russian retaliation. It also provides a comprehensive analysis of the region's demography, commerce and industry before the advent of the Karun, and the impact of Britain's political and commercial penetration, which eventually resulted in her total domination of the south. This analytical study of the Anglo-Iranian relationship is unique in its extensive use of primary Persian sources and original material found at the Iranian Foreign Ministry archives which have been accessed by the author for the first time.

Since 9/11, citizens of all nations have been searching for a democratic public philosophy that provides practical and inspiring answers to the problems of the twenty-first century. Drawing on the wisdom of past and present pragmatist thinkers, Judith M. Green maps a contemporary form of citizenship that emphasizes participation and cooperation and reclaims the critical role of social movements and nongovernmental organizations. Starting with empowering processes of storytelling, truth and reconciliation, and collaborative vision-questing that allow individuals to give voice and new meaning to their loss, anxiety, and hope, Green frames cooperative inquiries to guide transformative actions. From this "second strand" of the democratic experience, leaders and participating citizens can help to shape a more desirable democratic future. In dialogue with Richard Rorty, Judith Butler, James

Baldwin, Martin Luther King Jr., Elie Wiesel, Viktor Frankl, Cornel West, and other contemporary thinkers, Green defines the need for deeper understanding and fulfillment of the potentials of the democratic ideal. Drawing insights from Thomas Jefferson, Walt Whitman, William James, John Dewey, Jane Adams, and other earlier thinkers, Green frames a pragmatist understanding of emerging realities and possibilities, growing wells of shared truths, multifaceted histories, and mutually transformative experiences of citizenship. Employing examples from America's complex history and from recent world events, Green locates four sites for effective citizen activism: government at all levels, nonprofit organizations, issue-focused campaigns and social movements, and daily urban living. Green shows how citizens can revive social hope and deepen the democratic experience by drawing on their own knowledge and

*\*BBC Radio 4 Book of the Week\** Benjamin Zephaniah, who has travelled the world for his art and his humanitarianism, now tells the one story that encompasses it all: the story of his life. In the early 1980s when punks and Rastas were on the streets protesting about unemployment, homelessness and the National Front, Benjamin's poetry could be heard at demonstrations, outside police stations and on the dance floor. His mission was to take poetry everywhere, and to popularise it by reaching people who didn't read books. His poetry was political, musical, radical and relevant. By the early 1990s, Benjamin had performed on every continent in the world (a feat which he achieved in only one year) and he hasn't stopped performing and touring since. Nelson Mandela, after hearing

Benjamin's tribute to him while he was in prison, requested an introduction to the poet that grew into a lifelong relationship, inspiring Benjamin's work with children in South Africa. Benjamin would also go on to be the first artist to record with The Wailers after the death of Bob Marley in a musical tribute to Nelson Mandela. The Life and Rhymes of Benjamin Zephaniah is a truly extraordinary life story which celebrates the power of poetry and the importance of pushing boundaries with the arts.
